**2024 ANNUAL REPORT**

# OUR MISSION

The Steamboat Institute promotes America's first principles and inspires active involvement in the defense of liberty. We stand for the following five founding principles:

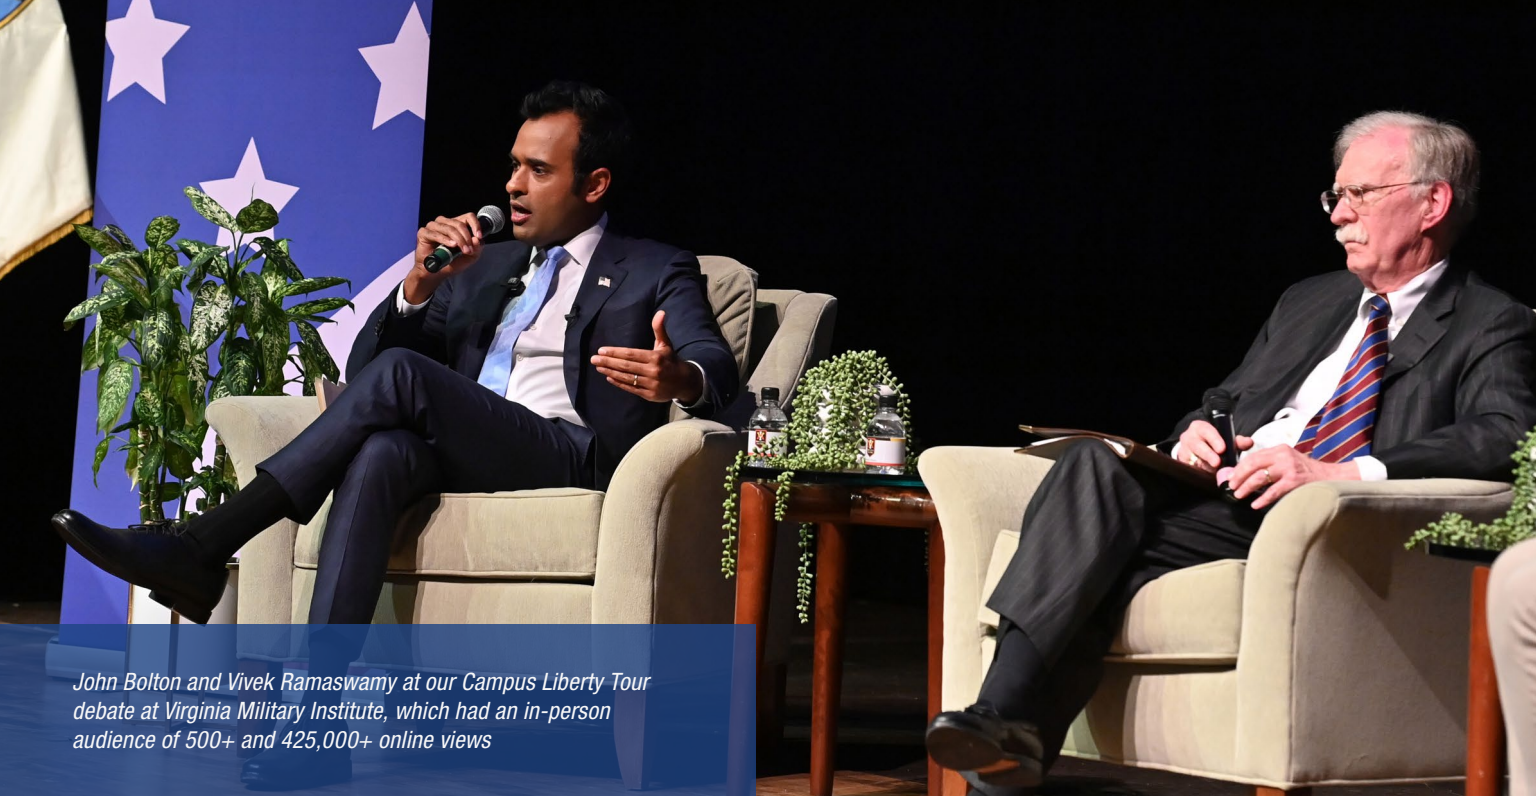

- ★ Limited government
- ★ Limited taxation and fiscal responsibility
- ★ Free market capitalism
- ★ Individual rights and responsibilities
- ★ Strong national defense

Here at The Steamboat Institute, we are Defenders of Freedom and Advocates of Liberty. We believe that America is a great nation because of our people, not because of our government.

The Steamboat Institute promotes America's first principles and inspires active involvement in the defense of liberty. Though we were founded in Steamboat Springs, Colorado, in 2008, The Steamboat Institute is not a place ... it's an idea — an idea that provides educational tools, information and inspiration to those who hold our founding principles dear.

Limited government, limited taxation and free market capitalism, individual rights and responsibilities, and strong national defense — these are the principles that have made America the greatest nation on Earth!

We take seriously the concept that freedom is never more than one generation away from extinction, and we intend to make sure that America grows stronger during our watch.

We create programs and initiatives to ensure America's freedom for future generations. Our Annual Freedom Conference brings Americans together to discuss the top issues facing the nation. Our Campus Liberty Tour and Emerging Leaders Council allow us to reach the next generation with common sense ideas and the tools to be advocates of liberty in their communities. Our Tony Blankley Fellows are fighting the mainstream narratives in the media to reach millions of Americans with a message of hope for the future of our country.

Our events are tremendously popular because they provide unique opportunities for people to have direct and personal contact with nationally recognized leaders in conservative thought and policy. This is an essential component in our fight for freedom.

When we started The Steamboat Institute in 2008, it was out of genuine concern for the future of our country. The Steamboat Institute has succeeded beyond anything we could have imagined. We have found that there is a tremendous desire by many Americans to make a difference in our communities, our states, and our nation.

# A MESSAGE

## FROM OUR CHAIRMAN

2024 was a watershed year for The Steamboat Institute and for America. Just 85 days after the brutal Hamas attacks on Israel in October 2023, we turned the calendar to 2024. Chaos and uncertainty prevailed. Antisemitic demonstrations – some violent – rocked America’s college campuses and major cities. A critical U.S. Presidential election loomed in November, with major implications for not only the U.S. but for the world. Then, in July 2024, a deranged gunman nearly assassinated former President Donald J. Trump, the 2024 GOP candidate for President, in Butler, Pennsylvania.

To those born before 1960, this brought back memories of 1968, a similarly chaotic, violent, unsettling year in America. We survived 1968, but how would 2024 turn out?

The Steamboat Institute was founded on the belief that America is a great nation because of its people, not because of its government. Our Founders – courageous and wise – created a U.S. Constitution that has stood the test of time, including the violent division of the Civil War, the chaos of 1968, and the chaos of 2024.

On November 5, 2024, Americans elected a new President, and the peaceful transfer of power took place, as provided in our Constitution, on January 20, 2025. Several university presidents stepped down or were forced to resign as alumni rose up and demanded that the antisemitic rhetoric and violence stop and that universities return to their core mission of educating and teaching critical thinking skills. Our newly elected President vowed to take prompt action to end the chaos at the U.S.-Mexico border and restore the rule of law.

Throughout all the chaos of 2024, Steamboat Institute thrived because we stayed true to our core principles and continued to staunchly promote civil debate and discourse of our nation’s most pressing problems.

We began 2024 by addressing the attack on Israel and other global threats by hosting a **Summit on Foreign Policy and Global Security** in Steamboat Springs. This Summit featured a powerhouse line-up of respected experts, including America’s 70th Secretary of State Michael R. Pompeo, Dennis Prager, Professor Gad Saad, Mary Kissel, and many more.

We were proud that, during such a volatile time, our **Campus Liberty Tour** featured twelve debates on college campuses across America, and not a single one was shouted down or cancelled!

With the launch of “**Steamboat Institute Digital**” in Spring 2024, we experienced exponential growth in our online audience, with **tens of thousands of new subscribers and followers** and **millions of views** of SI’s content. We are meeting young people where they are – on college campuses and on social media – and winning hearts and minds for freedom!

Our **13 Tony Blankley Fellows**, principled young journalists and policy influencers, reached **2.2 billion viewers, listeners and readers** with their fair and honest reporting – always searching for the truth, wherever it might lead.

In 2024, we expanded our **Emerging Leaders Council** to 45 members representing 18 states and Washington, D.C. These fearless, principled young leaders (ages 20-29) are stepping up in leadership roles all over the country – as civic leaders, State representatives, nonprofit leaders, and even in Washington, D.C. as appointees in the new Administration.

In August, we hosted our **16th Annual Freedom Conference** in the spectacular Rocky Mountain setting of Beaver Creek, Colorado. We are proud that this retreat-like setting continues to draw hundreds of people from across America, including 35 outstanding young leaders who receive scholarships after a very competitive application process.

As he departed the Constitutional Convention, Benjamin Franklin was asked if the framers had created a monarchy or a republic. “A republic,” he famously replied, “if you can keep it.”

The Steamboat Institute is committed to doing our part to keep our republic. We invite you to join us!

# CAMPUS LIBERTY

## TOUR

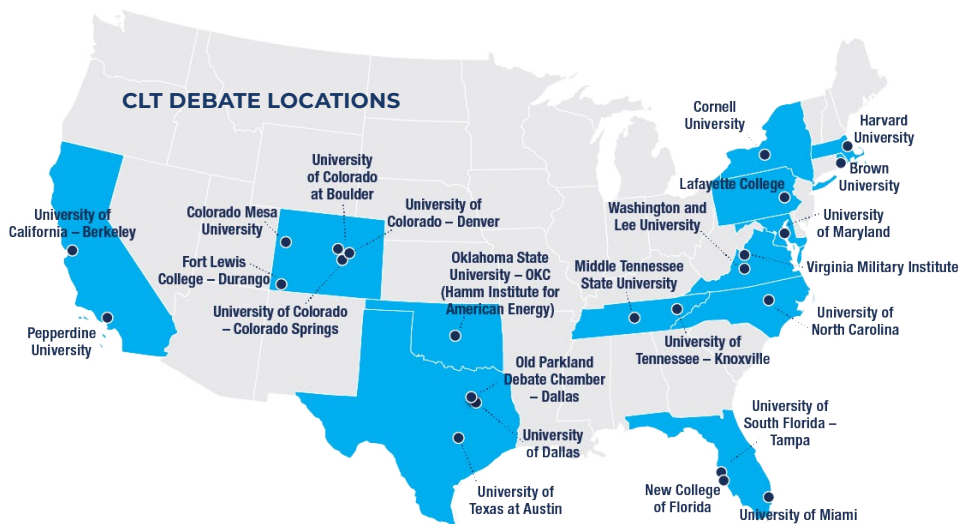

*VMI cadets enjoying the debate between John Bolton and Vivek Ramaswamy*

Steamboat Institute's Campus Liberty Tour is changing the culture on college campuses. Our debates, featuring high-profile experts on hot-button topics, are enthusiastically welcomed by students and other audience members, who are hungry for civil, substantive conversations (and tired of groupthink, censorship, or the cursory "debates" or talking-point volleys we see on TV). As always, our focus is on critical thinking and on showing students – and all who attend – *how* to think, not *what* to think.

2024 was a banner year for the Campus Liberty Tour. We hosted a record twelve debates - with our largest online audiences ever - and not a single one was shouted down or cancelled! Our excellent, high-profile debaters, our collaborative relationships with partner organizations and campuses, and our selection of in-demand topics are all important factors in our success. But the single most important factor is our insistence that every Campus Liberty Tour debate be respectful, fair and substantive.

We believe so strongly in pro-liberty ideas that we are willing – and eager – to subject them to debate. As you can see in the following pages, our pre- and post-debate polls indicate that, at nearly every debate we host, audience support for pro-liberty ideas grows when people have a chance to hear a compelling debate. But even audience members who don't change their minds on the resolution still leave with a richer understanding of their fellow Americans' perspectives.

In every post-debate survey, *overwhelming majorities* of our audiences say that our debates have given them more confidence to continue the conversation about the debate topic after the event and that they are inspired to learn more about the debate topic. While our debates only last 90 minutes, it is clear that their impact lasts much longer.

*“Even though you may disagree at moments, you can also agree sometimes as well; I feel like the whole point [of the debate] was to bring everybody together.”*

# 16<sup>TH</sup> ANNUAL

## FREEDOM CONFERENCE

*2024 scholarship recipients with keynote speaker Michael Oren (Israel's Ambassador to the U.S., 2009-13)*

16<sup>TH</sup> ANNUAL

# FREEDOM CONFERENCE & FESTIVAL

PARK HYATT • BEAVER CREEK, COLORADO

AUGUST 23-24, 2024

For 16 years, Steamboat Institute's Freedom Conference has drawn freedom-loving people from across America to our retreat-like setting in Colorado's spectacular Rocky Mountains each August. Our guests meet and hear from our nation's top experts on national security, the economy, energy and climate policies, media and culture wars, civil discourse, and many more topics. But the Freedom Conference is much more than a download of important information; it's a chance to unite with kindred spirits and reignite our hope for the future of our great country. Intellectually robust and uniquely enriching in the liberty movement, the Freedom Conference is renowned for inspiring citizens to have a deeper appreciation of the principles, policies, values and vision upon which America was founded and our precious freedom depends.

# SUMMIT ON FOREIGN POLICY AND GLOBAL SECURITY

STEAMBOAT GRAND 🌐 STEAMBOAT SPRINGS, COLORADO

JANUARY 20, 2024

*Michael R. Pompeo, 70th U.S. Secretary of State, kicked off the Summit with a speech on "The State of the World"*

*Author and Professor Gad Saad, Ph.D., spoke on "Countering Antisemitism with Education"*

*Dennis Prager, co-founder of PragerU and host of the Dennis Prager Show, closed the Summit with a powerful message on "Still the Best Hope: Why American Values Must Triumph"*

In the aftermath of the October 7, 2023, attacks on Israel, Steamboat Institute's leadership unanimously agreed that we must take a strong stand against antisemitism and provide information and education on the global chaos which is threatening U.S. national security. Our Summit on Foreign Policy and Global Security, held in Steamboat Springs, Colorado, in January 2024, addressed the growing threat of the "Axis of Evil" (Russia, Iran, China), as well as the horrifying rise in antisemitism across the U.S. and the globe. In addition to the 140 guests who attended in person, videos of speakers and panels drew 18,000+ views on YouTube. The Summit was also featured in The Daily Mail of London, which attracts millions of online readers per month.

The Summit featured nationally recognized experts who addressed:

- » U.S. military readiness/funding/capacity
- » U.S. leadership and the 2024 election
- » Rewiring our critical supply chains to lessen dependence on our adversaries
- » The root causes of the rise in antisemitism and how we can counter this dangerous trend
- » The terrorism threat on American soil posed by lack of control of our borders

*Members of our ELC and students from CU Boulder joined SI Chairman Jennifer Schubert-Akin at the Summit*

Other featured speakers at Steamboat Institute's Summit on Foreign Policy and Global Security included:

- » Elaine Dezinski of Foundation for Defense of Democracies
- » Kelley Currie, former U.S. Deputy Ambassador to the U.N.
- » George Bogden, Olin Fellow at Columbia Law School and Tony Blankley Fellow with Steamboat Institute
- » James Carafano of the Heritage Foundation
- » Daniel Flesch, former Senior Advisor for the Permanent Mission of Israel to the U.N. and paratrooper in the Israel Defense Force

*Mary Kissel, Senior Advisor to Secretary of State Mike Pompeo (2018-21) interviews author/reporter Julio Rosas on national security implications of the chaos at the U.S.-Mexico border*

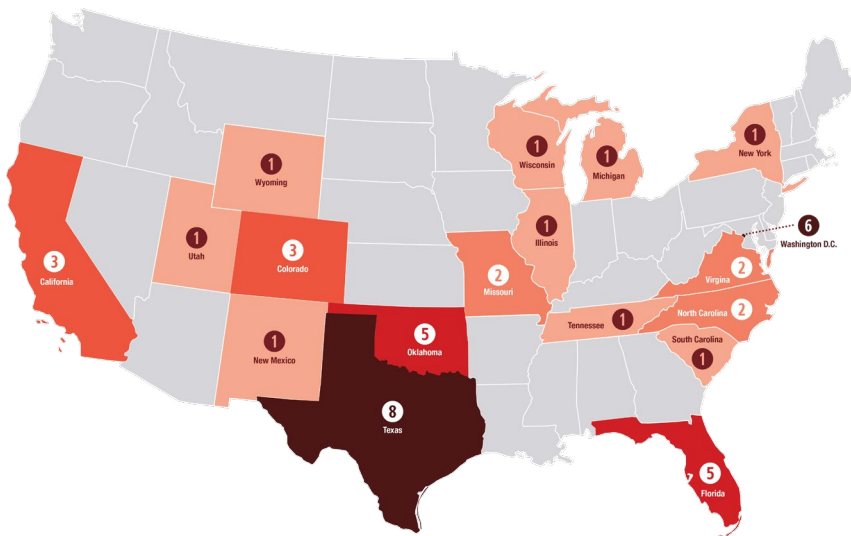

# EMERGING LEADERS COUNCIL

*35 ELC members and scholarship recipients attended the 16th Annual Freedom Conference in Beaver Creek, Colorado, in August*

**The Emerging Leaders Council (ELC) is a select group of young professionals from across the U.S. who are rising thought leaders, influencers, and policymakers.**

In 2024, the invite-only Emerging Leaders Council grew to a record 45 members. These young leaders are aspiring writers, educators, business leaders, lawyers, filmmakers, and even elected officials. With the support of Steamboat Institute, ELC members are trained and educated on founding principles, media and journalism, persuasion, and leadership. Their impact in their states and communities creates a chain reaction of engaged, liberty-minded citizens.

**OUR 45  
ELC MEMBERS  
REPRESENT  
18 STATES**

***“The Freedom Conference was a breath of fresh air. It’s always great to be in a room with people who love our country but, more importantly, it was great to see panels with competing ideas and ideologies battle for the truth.”***

– Corey Stevens, ELC Member

***“The Freedom Conference was a robust weekend of dynamic speakers discussing a wide variety of relevant topics. It was also an excellent opportunity to meet other young leaders who care about the future of our country.”***

– Daniel Pae, Oklahoma House Rep. for District 62 & ELC Member

***“Unlike other large events, the Freedom Conference had an intimate feel where the speaker seemed to be talking to only you.”***

– Tyler Linnebur, ELC Member

## OUTSPOKEN ROUNDTABLES

Outspoken Roundtables, an initiative created and led by ELC member Carter Mateer, is a participatory training program that sharpens critical thinking and debate skills, as well as knowledge of critical public policy issues.

Launched in 2023, the Outspoken Roundtable program really hit its stride in 2024, with five total roundtables on the following issues: birthright citizenship, U.S. involvement in foreign affairs, regulation of AI development, nuclear energy, and healthcare regulations. The program aims to empower young leaders to articulate ideas persuasively, navigate complex policy challenges, and explore ideas in a constructive but friendly environment. These debates are held both in-person and virtually, giving all ELC members the opportunity to participate, no matter where they live across the country. This initiative helps cultivate active citizenship and civic engagement, a vision that strongly aligns with Steamboat Institute's commitment to America's first principles. Not only that, but these roundtables are fun! Our ELC members love the challenge of quickly answering questions “on the spot” with substantive points and a polished delivery.

Emerging Leaders Council members with SI Chairman and CEO Jennifer Schubert-Akin at the 3rd Annual ELC Leadership Summit in Washington, D.C., where members spent a weekend developing their public speaking skills, networking, and gaining a deeper understanding of our nation's first principles

Economist Daniel J. Mitchell spoke at the 2024 ELC Leadership Summit on the threat posed to our economy by unsustainable levels of debt and government spending

# TONY BLANKLEY

## FELLOWSHIP FOR PUBLIC POLICY AND AMERICAN EXCEPTIONALISM

Brad Polumbo receiving the 2024 Tony Blankley Fellowship for Public Policy and American Exceptionalism

In 2024, Steamboat Institute awarded the 13th Tony Blankley Fellowship for Public Policy and American Exceptionalism to Brad Polumbo, an independent journalist, YouTube host and co-founder of BASEDPolitics.

Brad's daily YouTube show, "Brad Versus Everyone," reaches millions of Americans – many of them in Gen-Z – with the message of free markets and limited government. Brad is also a contributor at *Washington Examiner* and has been published in *Newsweek*, the *New York Post*, *National Review*, *USA Today*, the *Daily Beast*, the *Daily Mail*, and many other outlets. Brad appears regularly on network TV, including on CNN, Fox News, Fox Business, Sky News, and many other national programs including Dr. Phil. He graduated from the University of Massachusetts with a degree in economics and political science.

***"It is an honor to receive the Tony Blankley Fellowship. I'm incredibly excited to work with The Steamboat Institute to advance the causes of free-market capitalism, limited government, and individual rights. If we want to preserve freedom for future generations, we have to bring these ideas to the masses and, in particular, to the next generation of Americans—and no one is doing that more impactfully than The Steamboat Institute."***

## ABOUT THE TONY BLANKLEY FELLOWSHIP

The Steamboat Institute established the Tony Blankley Fellowship for Public Policy and American Exceptionalism to honor the memory of our dear friend, Tony Blankley, and to build on his legacy. Tony Blankley was a master journalist and communicator and acted as the Moderator for our first three Freedom Conferences (2009, 2010 and 2011). His insights and good humor were indispensable. The Steamboat Institute is proud to promote the work of our Tony Blankley Fellows. We value their expert analysis and thoughtful contributions to the national discourse.

### SELECTION COMMITTEE:

# SOCIAL MEDIA

In early 2024, Steamboat Institute launched “SI Digital,” a campaign to grow our online audience across all social media platforms. Our “shorts” campaign, promoting our Campus Liberty Tour debates by creating short (30 seconds to 2 minutes) video clips, resulted in exponential increases in viewer engagement and follower counts, including two clips that went viral, receiving **more than 4 million views on YouTube**. Our YouTube channel subscriber count jumped from 9,500 in January of 2024 to 20,000+ in December, a **110% increase**. Our channel also saw a **434% increase in views**.

On Facebook, we skyrocketed from 5,789 followers in January of 2024 to 28,987 followers by the end of 2024, an **increase of 400%**. Our Facebook engagement also increased, bringing nearly **2.6 million unique visitors** in 2024. Clips of our Blankley Fellows on Fox News, NewsNation, Fox Business, and others reached record-high numbers across all social media channels, and clips of our Emerging Leaders and scholarship recipients at our annual Freedom Conference also helped grow and engage our social audiences.

Overall, SI Digital resulted in massive online audience growth in 2024, allowing Steamboat Institute to reach millions of Americans with persuasive messages of individual liberty, free markets, limited government, and personal responsibility.

## HIGHEST PERFORMERS

# COURAGE

## IN EDUCATION AWARD

Dr. Jay Bhattacharya receiving the Courage in Education Award at our 2024 annual Freedom Conference.

The Courage in Education award is granted each year to an institution or member of academia who demonstrates a commitment to open inquiry, free speech, and intellectual diversity – traditional ideals of higher education that have been usurped in recent years in favor of identity politics and free speech restrictions.

### 2024 COURAGE IN EDUCATION AWARD RECIPIENT

#### Jay Bhattacharya, M.D.

*Professor of Medicine at Stanford University*

Jay Bhattacharya is a Professor of Health Policy at Stanford University, a research associate at the National Bureau of Economics Research, and a Senior Fellow by courtesy at the Hoover Institution. He directs Stanford's Center for Demography and Economics of Health and Aging.

Dr. Bhattacharya's research focuses on the health and well-being of vulnerable populations, emphasizing the role of government programs, biomedical innovation, and economics. His recent research focuses on the epidemiology of covid and an evaluation of policy responses to the epidemic.

In October 2020, he co-authored the Great Barrington Declaration, a proposed alternative to lockdowns, expressing grave concerns about the damaging physical and mental health impacts of the prevailing Covid-19 policies. For presenting this scientific evidence, which ran counter to the widespread lockdown policies, Dr. Bhattacharya was thrust into the public eye and subjected to a barrage of criticism, which he later described as "a stress test that I never imagined possible and, at times, thought I would not survive."

### PAST RECIPIENTS

### ENDOWMENT FOR THE FUTURE OF LIBERTY

To ensure the continuation of our work in educating and inspiring future generations to defend liberty, Steamboat Institute has established "The Steamboat Institute Endowment for the Future of Liberty."

In 2024, SI met the initial challenge to raise \$200,000 to match the \$100,000 challenge gift from long-time SI supporters and Board Members Emeriti Ron and Chenza Lazof.

SI's goal for 2025 is to grow the Endowment to \$1 million.

For more information about the Legacy Circle or the Endowment, please contact Jennifer Schubert-Akin, Chairman and CEO: [jsa@steamboatinstitute.org](mailto:jsa@steamboatinstitute.org)

# PRAISE FOR STEAMBOAT INSTITUTE

***“I had high expectations, and your conference surpassed them. The audience was super engaged and the speakers over delivered.”***

- Catherine Herridge, Emmy Award-winning veteran investigative correspondent; speaker at 2024 Freedom Conference

---

***“It was so refreshing to hear an actual debate instead of the circus we see on the news. Thank you for what you do.”***

- Attendee at Campus Liberty Tour debate at Virginia Military Institute, featuring Vivek Ramaswamy and John Bolton debating U.S. foreign policy

---

***“Your opening remarks were quite touching. To begin the day by immediately referring to the rise of antisemitism as the impetus for a conference on foreign policy and global security was noteworthy. As you said to the Jewish college students, we are not alone and have great friends and allies in the conservative movement standing alongside us.”***

- Daniel Flesch, former Senior Advisor to Israel’s Permanent Mission at the U.N. and paratrooper in the Israel Defense Forces; speaker at 2024 Summit on Foreign Policy and Global Security

---

***“The Steamboat Institute’s Tony Blankley Fellowship has been a defining part of my media career. Through Steamboat, I’ve had the opportunity to have my own team of media bookers placing me on major news programs, have been connected with high-level sources and interview subjects, and moderated campus debates on key issues. It’s been a blessing to be a part of a network of other highly successful and ambitious young conservatives in media. I couldn’t imagine reaching this stage in my career without the help of Steamboat and the Blankley Fellowship.”***
